Conveyor Cleaner

Clean
Filling Line
Spills
Automatically
While Production
Continues Uninterrupted

- Reduce Downtime
- Stabilize Line Pressure
- Low Cost Operation
- Installs Quickly
- Minimal Maintenance

*Patents Pending and Issued
Member PMMI USA*

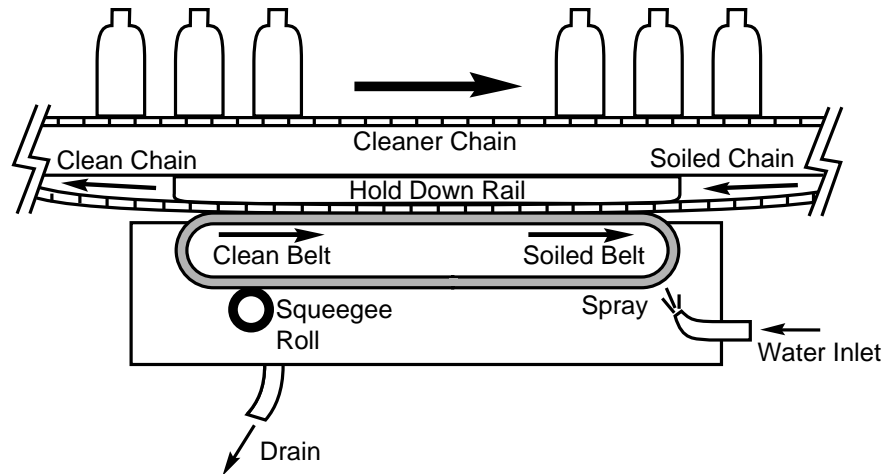

The Pace Conveyor Cleaner

Ideally Suited to a Wide Range of Filling Line Applications Including: Foods • Beverages • Soaps and Detergents • Liquid Waxes • Cosmetics and Toiletries • Pharmaceuticals • Chemicals

Sequence of Operations

In operation a moving, pre-moistened, heavy duty belt contacts the returning conveyor and exerts a continuous scrubbing action.

The Pace Conveyor Cleaner leaves the conveying surface damp dry for ease of product handling and reduction of line maintenance problems. No compressed air is required and water consumption is minimal.

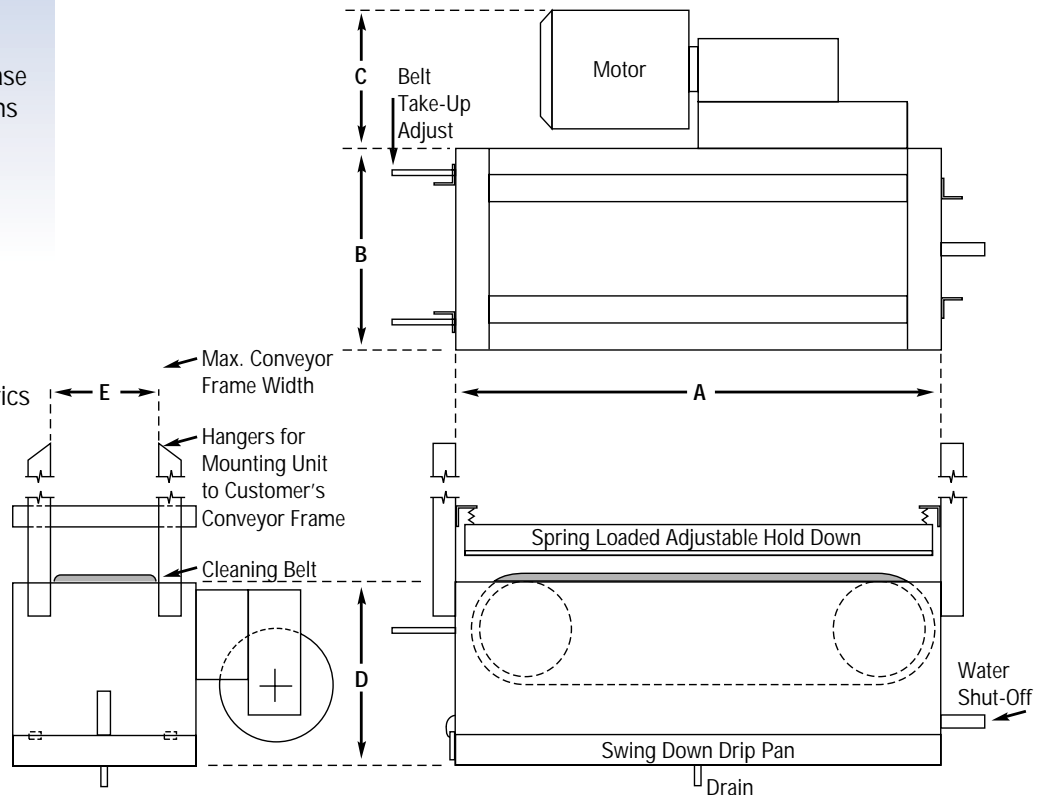

Specifications

- **Electrical:** 110v., 60 Hz., Single Phase
- **Water Requirement:** 5 TO 10 Gallons Per Hour
- **Construction:** Stainless Steel
- Universal Mounting Brackets
- **Optional Features:**
 - Germicidal Drip Unit
 - Drain Pump
 - Automatic Water Cut-off Solenoid
 - Quick Disconnect Water Inlet Fitting
 - 220/440 V. or Explosion Proof Electrics
 - Inlet Water Filter
- **Inquire About Container Bottom Cleaning**
